H	技术参数 (DIN EN 61984)			REV					ECN		DESCRIPTION		DATE		DRFT																																																																																																										
	插针数	1																																																																																																																							
	额定电流	200A																																																																																																																							
	额定电压	1000V																																																																																																																							
	脉冲电压	8kV																																																																																																																							
G	污染等级	3																																																																																																																							
	绝缘电阻	$\geq 10^{10} \Omega$																																																																																																																							
	材料	聚碳酸酯																																																																																																																							
	阻燃等级	UL94-V0																																																																																																																							
	温度范围	$-40^{\circ}\text{C}\sim +125^{\circ}\text{C}$																																																																																																																							
F	接线方式	冷压连接																																																																																																																							
	插拔次数	≥ 500
